Hand Dryer Installation Service

We offer a professional hand dryer installation service, available on request. Installations are suitable for washrooms with existing fused spurs and include the replacement of old units where required. All work is carried out by qualified engineers and scheduled with a minimum two-week lead time.

We can also arrange the compliant return and disposal of old units in line with WEEE Directive regulations.

Please contact us for further details.

Special Project Service

Our Special Project Service allows for the design and manufacture of bespoke hand dryers, tailored to suit certain specification needs.

This can include, but is not limited to, the development or redesign of a dryer, to meet certain cost, quality, functionality, branding, colour and sustainability requirements.
