Adjust your heating on the go

The NiDO Ceramic Core Electric Radiator combines advanced ceramic heating technology with intelligent smart-home control to deliver efficient, consistent, and comfortable warmth throughout. Designed with a premium aluminium body and a high-performance ceramic core, it provides exceptional heat retention and even heat distribution while helping to reduce energy consumption.

Control your heating from anywhere using the TUYA or Smart Life app, create personalised schedules, and enjoy seamless integration with Amazon Alexa and Google Assistant. With adaptive heating functions, open-window detection, precision temperature control, and advanced safety protection, the NiDO Ceramic radiator offers a smarter, more economical way of heating.

NiDO Ceramic Core Radiator is the perfect solution for modern homes, apartments, offices, and energy-conscious households seeking reliable comfort, intelligent control, and long-term performance.
